

C programming2 for loop

Aaryan chavda

September 2025

1 example 2: print 1st 10 odd numbers

```
#include <stdio.h>

int main() {
    int i;

    printf("The first 10 odd numbers are:\n");

    for(i = 1; i <= 19; i += 2) {
        printf("%d ", i);
    }

    return 0;
}
```
