1 example 13:bytes to KB, MB, and GB

```
    #include <stdio.h>

int main() {

    long b,kb,mb,gb ;
    printf("Enter bytes ");
    scanf("%ld",&b);
    printf("kb= %ld",  kb=b/1024);
    printf("mb= %ld",  mb=b/(1024*1024));
    printf("gb= %ld",  gb=b/(1024*1024*1024));
    return 0;
}
```
